EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Koziarz on 7 June 2007.

The application has been amended as follows:

In the Claims:

Claim 1, line 5, delete "including a lens having a non-uniform thickness"; and

last line, after "source", insert --wherein said non-reflective portion includes a thinner portion closer to the reflective portion and a thicker portion at a central point of the non-reflective portion--.

Cancel claim 31.

2. The following is an examiner's statement of reasons for allowance: Because the independent claim 1 has now been amended by adding the limitation --wherein said non-reflective portion includes a thinner portion closer to the reflective portion and a thicker portion at a central point of the non-reflective portion-- to clearly distinguish from the prior art of record.
